

MAUI LIKELY TO RENEW MONTHLY PROMOTION FUND

Forty Members of Valley Isle Chamber of Commerce Vote to Reopen the Question

(Special Star-Bulletin Correspondence) WAILUKU, Sept. 3.—Forty members of the Maui Chamber of Commerce met yesterday at the court room of the district magistrate.

The subject of only 10 delegates to the Maui convention was considered at some length, and it was finally decided that only 10 members could go, anyway, and those 10 were ready to go so the matter of limiting the number of Maui people to the convention was dropped.

The question of restoring the \$50 per month to the Honolulu Promotion Committee came up and caused quite a little discussion of the whole promotion idea. The letters that came from the Promotion Committee in reference to the matter were read. The editorial in one of the local papers that only 12 tourists a year visited Maui was brought up. Worth O. Allen reported that about 80 persons had paid registration fees during August for staying overnight at Halehale, at the summit house.

It was finally voted that W. O. Allen, D. C. Lindsay and Harold Rice should be the committee to confer with the Board of Supervisors concerning the appropriation to the Promotion Committee.

The most vital subject under discussion was the question of the maintenance of the McGregor's landing, and the kind of advice that the Maui Chamber of Commerce cared to give the Board of Harbor Commissioners on the subject. For nearly an hour the question in all its phases was considered. Lathina and Kihel and even Maalaea landing came in for their share in the argument.

It was pointed out most carefully by George Dunn and D. C. Lindsay that Kihel wharf could and would be used by the inter-island boats as soon as the entrance was properly marked by buoys and lights.

Many of the members felt that the only sensible thing to do as a chamber was to unite upon one policy. Some favored retaining McGregor's at any cost, others that the former Maalaea should be taken and all efforts made to get that wharf adopted as the one safe landing while the majority were of the opinion that Kihel was the only place if the wharf would be used.

A motion was made to the effect that the Maui Chamber of Commerce recommended to the Harbor Commissioners that McGregor's landing be abandoned provided Kihel landing be made safe at the earliest possible moment, and that the inter-island boats that had been in the habit of stopping at McGregor's be required to stop at Kihel. At the conclusion of the framing of this motion, it passed unanimously when the question was put.

A letter from R. H. Allen, editor of the Star-Bulletin, was read in reference to extending an invitation to the Royal Rosarians to pay a visit to the islands and it deemed advisable to have them make a stop over on Maui. This was voted unanimously and an invitation will be extended by the Maui Chamber to the Rosarians of Oregon.

BIG ISLAND MURDERER MADE GETAWAY FROM KONA, SAYS SHERIFF

(Special Star-Bulletin Correspondence) HILO, Sept. 3.—Francisco Moliers, the Spanish murderer who shot and killed night watchman Pedro at Niihau three weeks ago, and whose broken rifle and clothing were found on a trail near Kamilo last week, is not believed to be dead and the sheriff is confident that the man has managed to make his way out of the district.

The murderer is thought to have arranged for a friend to take the rifle and clothing to the spot where they were found and also to deposit the brief note that was pinned to the clothes. It is thought that Moliers, dressed in another suit, has left the Kona district and may be anywhere on this island at present.

Sheriff Pua, who returned from Kona on Tuesday last, says that he has reason to believe that Moliers is now armed with a revolver and that the man, aided by friends or people who are too afraid of the murderer to give information to the police, is now hiding in some new district.

APRIL CLOUDBURST IS CAUSE OF DAMAGE SUIT

(Special Star-Bulletin Correspondence) WAILUKU, Sept. 3.—Damage suits against Maui county seem to be coming thick and fast. This week again it is a Hana affair, and again caused by the flood in the cloudburst last April. John K. Kaleo, through his attorneys, D. H. Case and Enos Vincent, has entered a claim for damages to the tune of \$7500 caused by water from artificial ditches then being built by the county overflowing his land and ruining five acres of crops. Fruit trees and tobacco were destroyed.

KAHULUI PEOPLE HAVE TO USE OCEAN AS TUB; WATER MAINS ARE DRY

(Special Star-Bulletin Correspondence) WAILUKU, Sept. 3.—For about one week now, people of Kahului and Kihel have been forbidden to draw any water from the mains for the purpose of irrigation. The water situation in this portion of Maui became a matter of real seriousness during the last three weeks. Water was so scarce that even a daily bath was out of the question in many of the homes of Wailuku residents, and Kahuluites were said to be fortunate if they could get enough water to bathe once a week. The ocean became their tub.

It was impossible for any resident in Wailuku above the juncture of Main and High streets to get any water at all except in the very early morning. The superintendent of the water works issued the order to conserve the water with the result that the condition of the supply in the house was much improved, but the lawns and gardens were a sorry sight for some days.

Engineer Balch of the Maui land fund commission, claims one reason for the scarcity of water was due to the dreadful waste that was constantly going on. Sixteen taps were found running to no purpose whatever and in some places the water was never shut off day or night. A strict watch on all consumers has been inaugurated, and the rules of the department will be strictly adhered to in the future.

SHEBA PLANNING TO TAKE MACHINE RIGHT TO JAPAN

Together with a large number of prominent local Japanese, S. Sheba, president of the Hawaiian Shiping-Sha, Ltd., and editor of the paper, has booked passage to the coast on the Sonoma leaving on Thursday of this week. Mr. Sheba said this morning, however, that it is quite probable that the trip will have to be postponed for several days.

He is very anxious to take his newly invented typesetter to Japan, where he plans to make a few improvements, and set about introducing it throughout the islands before he returns permanently to Hawaii. It is possible that on his way back from the coast he will stop over here to make a demonstration.

Mr. Sheba believes that his machine will be to Japanese printing what the linotype has been for the printing of European nations.

BORN.

MIRANDA—In Ewa, Oahu, September 3, 1915, to Mr. and Mrs. Joseph Miranda, a son.

TRACY—In Honolulu, September 4, 1915, to Mr. and Mrs. CHITON H. Tracy of 378 South Beretania street, a daughter.

MARRIED.

PING-SOUZA—In Hilo, Hawaii, August 28, 1915, Ping Chung and Miss Mary Souza, Rev. Ernest G. Silva, pastor of the Hilo Portuguese Evangelical church, officiating.

LOVELL-KAI—In Hilo, Hawaii, August 26, 1915, Joseph Lovell and Miss Jessie Kumoku Kaha Kai, Rev. Stephen L. Desha, pastor of the Hilo church, officiating; witnesses—Mr. and Mrs. W. E. C. Brown.

GAMBESKY-HOLOWATY—In Hilo, Hawaii, August 26, 1915, Demetri Gambesky of Papeete and Miss Sophia Holowaty of Glenwood, Oha.

DIED.

KAMALIKANE—At the insane asylum, Honolulu, September 6, 1915, David W. Kamalikane, Hawaiian, widower, 78 years old.

MANN—In Honolulu, September 5, 1915, William Mann, territorial board of health sanitary inspector, of 1204 Lunaillo street, a native of England, 52 years old. Funeral services at half-past 3 o'clock this afternoon at the residence; interment private.

BENEVIDES—In Honolulu, September 3, 1915, Joseph Benevides of 1862 F. Liliha street, a native of Lagoa, island of St. Michaels, Azores, Portugal, 72 years and 6 months old.

PEDRO—In Honolulu, September 2, 1915, Joseph Louis Pedro, Japanese-Hawaiian, a native of this city, eight years old.

WATERMAN—In San Francisco, California, August 24, 1915, Mrs. Waterman, mother of Clarence Waterman of Hilo, Hawaii, seventy-one years old.

CORREA—In Honolulu, September 4, 1915, John M. C. Correa of 1541 Fort street, married, a native of Funchal, island of Madeira, Portugal, fifty-one years old. Funeral services at four o'clock this afternoon in Silva's undertaking parlors, Nuanu and Kukui streets; interment in the Nuanu cemetery.

PHILLIPS—At the Insane Asylum, Honolulu, September 4, 1915, Manuel Phillips, formerly of Panoa, hachdriver, a native of Panama, fifty-five years old.

ARCIA—In Honolulu, September 5, 1915, Mrs. James I. Arcia of 223 Kuakini street, a native of this city, thirty-six years, four months and eight days old. Services at two o'clock this afternoon in Silva's undertaking parlors, Nuanu and Kukui streets; interment in the Pua cemetery.

WANTS ADVICE ON BEST USAGES OF CHOLERA SERUM

In the communication which Governor Pinkham has forwarded to the secretary of agriculture requesting that Dr. A. D. Melvin be detailed to Honolulu with a view to giving certain advice to the members of the territorial board of agriculture and forestry, the chief executive calls attention to the problem which the board is facing in the matter of hog cholera.

Governor Pinkham declares that the use of serum alone in treating the disease is not satisfactory. He continues, in part, as follows:

"Another problem confronting us here is the question as to the advisability of allowing the use of the serum in simultaneous treatment for hog cholera within the territory.

Two of the largest hog raisers here have come to the conclusion that the serum alone treatment is not satisfactory and claim to have suffered heavy losses for want of permission to introduce and use the virus here. A telegram recently promulgated by the board of agriculture and forestry forbids the introduction of hog cholera virus without special permission, and the question whether such permission would be to the best interests of everybody concerned in an isolated territory where the introduction of fresh infection from abroad can be most effectively controlled, and where the disease has always shown a strong tendency to attenuation in virulence, is one which has also actuated the said board to send Dr. Norgaard to the Oakland meeting for elucidation.

His main object will, however, be to meet Dr. Melvin, whom he confidently expects will be there, and in case you, Mr. Secretary, should decide to send him on a tour of inspection to this territory to accompany him and advise him in every way possible, to make this trip as pleasant and as profitable to all concerned as possible.

Prisoners are also to be sent to Waimea in order to work on the road near that town. It has been decided that the prisoners work out from the town, while the portion of the road that is to be made by contract will be begun at the Kona end and worked towards the town of Waimea.

The Parker ranch people still stand ready to fulfill their part of the bargain and that is the furnishing of a camp site, water supply and all haulage or needed food supplies to the prison camp. The only thing that is needed now is the exact location of the camp. That, according to a letter received from A. W. Carter by his manager, O. Solomson, has not been made known to the Parker ranch management.
